

KENDALL CONNECTION LIVE

MACHINE SIMPLIFICATION WITH ON-MACHINE SOLUTIONS

Join us in-person to learn more about the latest On-Machine solutions from Rockwell Automation and their Technology Partners

During this session, we will explore solutions that provide a decentralized equipment design approach to minimize panel space and simplify design. We will demonstrate an On-Machine system design using Integrated Architecture Builder, including hardware selection, network cabling, and choosing ArmorConnect media.

Take a deep dive into the added benefits of this modular and environmentally robust approach, such as time and cost reduction, floor space savings, quickened installation benefits, and much more.

FEATURED PRODUCT INTRODUCTIONS AND UPDATES:

- **ArmorStart Technology and Armor PowerFlex (Coming Soon)**
- **Armor GuardLogix Controllers**
- **ArmorStratix Network Switches**
- **ArmorBlock I/O Modules**
- **Technology Partners including Wittenstein, AMCI, and CoreTigo**
